

HOW TO CHOOSE HAND AND SWING OF DOORS

While standing outside of your shelter, looking at the door opening:

Figure #1: If the door is to swing into your shelter space to the left, it is an in-swing, left-hand door.

Figure #2: If the door is to swing into your shelter space to the right, it is an in-swing, right-hand door.

Figure #3: If the door is to swing out into the space where you are standing, towards your left, it is an out-swing, right-hand door.

Figure #4: If the door is to swing out into the space where you are standing, towards your right, it is an out-swing, left-hand door.
